Biodynamics Phase Series (I - VIII): Open to DO's, MD's, Dentists and Medical Students in their 5th year of medical education who meet at least one of the following criteria: a 40-hour cranial course, a BioBasics Module or by permission of the course instructor. Enrollment is on a first-come/first-serve basis.

COURSE DESCRIPTIONS

Phase I — An introduction to a biodynamic model of O.C.F. C.N.S. motion and development. Balanced fluid tension.

Phase II — An in-depth perception of fluid dynamics. Therapeutic/diagnostic use of balanced fluid tension around the fulcrum incited by the tidal forces. Rates. CV4-EV4 techniques. Automatic shifting.

Phase III — Dural development up to full adult. Intramembranous shearing. Work with the long tide. The anterior dural girdle and its clinical significance. Tempo and humility.

Phase IV — The midline as a therapeutic force. The reciprocal tension of the potency. The ignition.

Phase V — The embryological development of the face. Evaluation and treatment of the face and cranium through embryological segments.

Phase VI — The facial midline. Fine tuning. Treatment of the extremities using Sutherland's power points. (Dr. Ruby Day's explanation of W.G. Sutherland's use of potency inside bones.)

Phase VII — Finding the Health. Letting go of relationships with Motion. Feeling the physical presence and substance of the perfect form.

Phase VIII — The Void, Love and Healing.
